TEAM

Spa De Soleil Research and Development team includes world-class chemists who formulate products that capture your unique product vision. Our chemists strive to combine quality ingredients, innovation, and the latest research to develop unprecedented formulations.

At Spa De Soleil, Inc., we manufacture to a GMP standard and adhere to strong quality objectives that align with the products' intended use.

Spa De Soleil's quality assurance and quality control personnel are highly trained and qualified to ensure products meet safety and quality standards. The laboratory follows a strict retain-sample program and a consistent stability program that studies the behavior, safety, and stability of every formula.

WELL-VERSED IN THE BEAUTY INDUSTRY, SPA DE SOLEIL DEVELOPS PRODUCTS THAT ARE **IN LINE** WITH CHANGING MARKET TRENDS.

CATEGORIES:

■ CERTIFIED ORGANIC

Spa De Soleil specializes in formulating certified organic personal care products. Our facility is USDA certified and our chemists are well versed in the chemistry behind creating products that are compliant with organic regulations without compromising their feel, efficacy, and luxurious experience.

■ SKINCARE

At its core foundation lies Spa De Soleil's quality skincare products. With a mission to help our clients thrive through our products, we stay on top of market trends and consistently develop our capabilities and formulating methods to offer innovative private label solutions.

■ COSMETICS

Spa De Soleil fuses quality skincare ingredients into our color cosmetics, creating lip balms, lip sticks, eye-lash boosting mascaras, smooth foundations, and BB creams that compliment and enhance the skin.

■ HEMP & CBD

Spa De Soleil formulates and manufactures personal care products that focus on the potent healing benefits of cannabinoids and hemp. We have extensive experience in creating skincare, body care, and pet products with CBD in liquid and hot pour form.

■ NATURAL

We ensure that our products utilize nature's best ingredients to provide optimal nourishment to the skin. Spa De Soleil understands the importance of clean and natural formulations. We push the boundaries and explore new formulation methods and ingredients to create natural products without compromising on the efficacy or feel of the product.

■ BATH & BODY

Our bath and body care capabilities include liquid hand soaps, bath salts and scrubs, body lotions, bath bombs, massage creams, body masks, and aromatherapy oils. Our bath and body category is ever expanding with innovative product concepts, trending ingredients, and clean sustainable packaging.

■ HAIR CARE

Our haircare works to reveal strong, healthy, and shiny hair with products that are void of Sulfates, Parabens, Dyes, Mineral-Oils, and harsh chemicals. Spa De Soleil offers both men and women's shampoo and conditioner, hair oil, hair masks, gels, pomades, dry hair shampoo, and more.

■ WIPES

In the home or on the go our antibacterial wipes are packaged in easy dispensing HPDE canisters or flow wrapped bags with re-closable lids. As a leading innovator in the beauty industry with cutting edge technology we are also able to manufacture makeup remover and facial wipes in flow wrapped bags with re-closable lids.

■ OTC

Spa De Soleil formulates and manufactures Over The Counter products such as SPF, and products that address Lightening, Acne, Psoriasis, Eczema, Seborrhea, and Rosacea. We carry products through the required FDA regulation to ensure that products are safe and complaint.

■ BABY CARE

Drawing on the most gentle and natural ingredients, Spa De Soleil has developed and continues to create new safe and gentle baby products. These products include bath wash, baby shampoo, diaper rash cream, and baby eczema ointment, to name a few.

■ PET CARE

Our all-natural pet care products are specially designed to tend to pets with the most gentle of formulations, offering 2-in-1 shampoos, odor and stain removers, and products that address flea and ticks.

■ HOUSEHOLD CLEANING

Our in-house chemists have the ability to create a variety of formulations for every clients needs. We can be as environmentally conscious as needed while still producing effective cleaning solutions. Our products range from all purpose cleaners to glass cleaners to toilet bowl cleaners.
